

Section I Preface

Purpose

The purpose of this survey is to provide a quick reference comparison of pilot policies and programs between a number of regional air carriers.

Source of Information

The information provided has come directly from participating carriers and represents a cross section of airlines. The information is taken from an assortment of internal policy manuals and contracts. The policies and programs outlined for the regional air carriers, including carriers under collective bargaining agreements, may be in use as a result of company policy rather than any contractual requirements.
